

Aircraft Interior

Lubricants designed specifically for an aircraft interior to improve the functionality, reliability, and longevity of components within the cabin, galley, and lavatory.

OVERHEAD

Air Vent Controls - NyoGel® 774HF

Compartment Latches & Hinges - Rheolube® 462F

Pressure/Oxygen Valve O-Ring - L-Phen-100K

ELECTRICAL

Lighting Connectors - NyoGel® 760G

Multifunction Switches - Rheolube® 362HB

Sliding Switches - Rheotemp™ 763G

GALLEY & LAVATORY

Door Hinges & Latches - Rheolube® 462F

Food Prep Compartment - Fluorocarbon Gel 880FG

Food Prep Equipment - UniFlor™ 8921A

SEATS

Personal TV Hinges - NyoGel® 774 Series

Reclining Mechanisms - UniFlor™ 8172

Seat Belt Latches - Fluorocarbon Gel 880

Seat Tray Hinges - NyoGel® 774 Series

LUBRICANTS IN FLIGHT: CABIN, GALLEY & LAVATORY

Passenger seating and storage systems can benefit from a thin film of lubricant applied to interior component hinges and slides, to reduce noise generated by vibration and friction in the aircraft cabin while engines are running. In most instances, the actuation of these interior components are operated by passengers when pulled into their open positions. A properly selected lubricant that stays in place will ensure a quality sound and feel of operation. Passenger electronic interfaces and entertainment systems rely on lubricants to ensure electrical connections have long-term protection from corrosion and fretting wear.

Since 1844: Our performance is reflected in the value we bring to our customers.

Nye Lubricants is a leader in the innovation, formulation and provision of synthetic lubricants, enabling and improving breakthrough products and critical new technologies. We bring proven experience, deep technical knowledge and customer focus to solve our customers' toughest challenges, adding tangible value to products in a wide range of industries and applications.
