

# SAFETY DATA SHEET

Version #: 04 Issue date: 02-06-2014 Revision date: 11-15-2023 Supersedes date: 05-20-2019

## SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1. Product identifier		
Trade name or designation of the mixture	NYOGEL 774F-MS	
Registration number	-	
Synonyms	None.	
Product code	NYOGEL 774F-MS	
1.2. Relevant identified uses of t	he substance or mixture and us	ses advised against
Identified uses	Lubricating grease	
Uses advised against	Uses advised against None known.	
1.3. Details of the supplier of the	safety data sheet	
Supplier		
Company name	Nye Lubricants, Inc.	
Address	12 Howland Road	
	Fairhaven, MA 02719	
	United States	
Division		
Telephone	General Assistance	+1-508-996-6721
e-mail	sds@nyelubricants.com	
Contact person	Not available.	
1.4. Emergency telephone number	3E Online	+1-800-451-8346

## SECTION 2: Hazards identification

#### 2.1. Classification of the substance or mixture

The mixture has been assessed and/or tested for its physical, health and environmental hazards and the following classification applies.

## Classification according to Regulation (EC) No 1272/2008 as amended

This mixture does not meet the criteria for classification according to Regulation (EC) 1272/2008 as amended.

## 2.2. Label elements

### Label according to Regulation (EC) No. 1272/2008 as amended

Hazard pictograms	None.
Signal word	None.
Hazard statements	The mixture does not meet the criteria for classification.
Precautionary statements	
Prevention	Observe good industrial hygiene practices.
Response	Wash hands after handling.
Storage	Store away from incompatible materials.
Disposal	Dispose of waste and residues in accordance with local authority requirements.
Supplemental label information	None.
2.3. Other hazards	This mixture does not contain substances assessed to be vPvB / PBT according to Regulation (EC) No 1907/2006, Annex XIII. The product does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.

## SECTION 3: Composition/information on ingredients

## 3.2. Mixtures

SECTION 4: First aid measures           ieneral information         Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves.           1. Description of first aid measures         Move to fresh air. Call a physician if symptoms develop or persist.           Skin contact         Wash off with soap and water. Get medical attention if irritation develops and persists.           Eye contact         Rinse with water. Get medical attention if irritation develops and persists.           Ingestion         Rinse mouth. Get medical attention if symptoms occur.           2. Most important symptoms delayed         Exposure may cause temporary irritation, redness, or discomfort.           3. Indication of any mediate medical attention if are symptomatically.         Treat symptomatically.           Stinguishing media         Suitable extinguishing media         Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2).           Mountual fire or explosion hazards noted.         During fire, gases hazardous to health may be formed.           3. Advice for firefighters         Self-contained breathing apparatus and full protective clothing must be worn in case of fire.           Special fire fighting procedures         Self-contained breathing apparatus and full protective clothing must be worn in case of fire. SECTION 6: Accidental release measures	Specific methods	Use standard firef	ighting procedures a	nd consider the hazards of o	ther involved ma	terials.
	SECTION 6: Accidental r	elease measure	6			

6.1. Personal precautions, protective equipment and emergency procedures For non-emergency Wear appropriate personal protective equipment. personnel

For emergency responders	Keep unnecessary personnel away. For persona	-	ection 8 of the SDS.
6.2. Environmental precautions			
6.3. Methods and material for containment and cleaning up	Stop the flow of material, if this is without risk. Following product recovery, flush area with water.		
6.4. Reference to other sections	For personal protection, see section 8 of the SD	IS. For waste dispos	sal, see section 13 of the SDS.
SECTION 7: Handling and	storage		
7.1. Precautions for safe handling	Avoid prolonged exposure. Observe good indus	trial hygiene practic	es.
7.2. Conditions for safe storage, including any incompatibilities	Store in tightly closed container. Store away from SDS).	m incompatible mate	erials (see Section 10 of the
7.3. Specific end use(s)	Not available.		
SECTION 8: Exposure cor	ntrols/personal protection		
8.1. Control parameters			
Occupational exposure limits	inance (GwV), BGBI. II, no. 184/2001 Type	Value	Form
Molybdenum disulphide	МАК	10 mg/m3	Inhalable fraction.
(CAS 1317-33-5)	STEL	20 mg/m3	Inhalable fraction.
Silica, amorphous, fumed, crystal-free (CAS 112945-52-5)	МАК	4 mg/m3	Inhalable fraction.
Biological limit values	No biological exposure limits noted for the ingre	dient(s).	
Recommended monitoring procedures	Follow standard monitoring procedures.		
Derived no effect levels (DNELs)	Not available.		
Predicted no effect concentrations (PNECs)	Not available.		
8.2. Exposure controls			
Appropriate engineering controls	Good general ventilation should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level.		
Individual protection measures, General information	such as personal protective equipment Personal protection equipment should be chose discussion with the supplier of the personal prot		CEN standards and in
Eye/face protection	Wear safety glasses with side shields (or goggle	• •	
Skin protection			
- Hand protection	Wear appropriate chemical resistant gloves.		
- Other	Wear suitable protective clothing.		
Respiratory protection	In case of insufficient ventilation, wear suitable respiratory equipment.		
Thermal hazards	Wear appropriate thermal protective clothing, whether the second se	hen necessary.	
Hygiene measures	Always observe good personal hygiene measur and before eating, drinking, and/or smoking. Ro equipment to remove contaminants.		
Environmental exposure controls	Emissions from ventilation or work process equi with the requirements of environmental protection engineering modifications to the process equipm acceptable levels.	on legislation. Fume	scrubbers, filters or

## **SECTION 9: Physical and chemical properties**

SECTION 9. Filysical and	
9.1. Information on basic physic	cal and chemical properties
Physical state	Solid.
Form	Solid.
Colour	Not available.
Odour	Not available.
Melting point/freezing point	2375 °C (4307 °F) estimated
Boiling point or initial boiling point and boiling range	450 °C (842 °F) estimated
Flammability (solid, gas)	Not available.
Flash point	> 200,0 °C (> 392,0 °F) ASTM D-92
Auto-ignition temperature	Not available.
Decomposition temperature	Not available.
рН	Not available.
Solubility(ies)	
Solubility (water)	Not available.
Partition coefficient (n-octanol/water)	Not available.
Vapour pressure	0,00001 hPa estimated
Vapour density	Not available.
Relative density	Not available.
Particle characteristics	Not available.
9.2. Other information	
9.2.1. Information with regard to physical hazard classes	No relevant additional information available.
9.2.2. Other safety characteristi	ics
Density	0,93 g/cm³
Explosive properties	Not explosive.
Oxidising properties	Not oxidising.
Shelf life	4 years
Specific gravity	3,83 estimated
SECTION 10: Stability an	d reactivity
10.1. Reactivity	The product is stable and non-reactive under normal conditions of use, storage and transport.
10.2. Chemical stability	Material is stable under normal conditions.
10.3. Possibility of hazardous reactions	No dangerous reaction known under conditions of normal use.
10.4. Conditions to avoid	Contact with incompatible materials.
10.5. Incompatible materials	Strong oxidising agents.
10.6. Hazardous decomposition products	No hazardous decomposition products are known.
SECTION 11: Toxicologic	cal information
General information	Occupational exposure to the substance or mixture may cause adverse effects.
Information on likely routes of	exposure
Inhalation	Prolonged inhalation may be harmful.
Skin contact	No adverse effects due to skin contact are expected.
Eye contact	Direct contact with eyes may cause temporary irritation.
Ingestion	May cause discomfort if swallowed. However, ingestion is not likely to be a primary route of occupational exposure.
Symptoms	Exposure may cause temporary irritation, redness, or discomfort.
11.1. Information on toxicologic	
Acute toxicity	Not known.

Serious eye damage/eye irritation	Due to partial or complete lack of data the classification is not possible.
Respiratory sensitisation	Due to partial or complete lack of data the classification is not possible.
Skin sensitisation	Due to partial or complete lack of data the classification is not possible.
Germ cell mutagenicity	Due to partial or complete lack of data the classification is not possible.
Carcinogenicity	Due to partial or complete lack of data the classification is not possible.
Reproductive toxicity	Due to partial or complete lack of data the classification is not possible.
Specific target organ toxicity - single exposure	Due to partial or complete lack of data the classification is not possible.
Specific target organ toxicity - repeated exposure	Due to partial or complete lack of data the classification is not possible.
Aspiration hazard	Due to partial or complete lack of data the classification is not possible.
Mixture versus substance information	No information available.
11.2. Information on other hazar	ds
Endocrine disrupting properties	The product does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.
Other information	Not available.
SECTION 12: Ecological in	nformation
12.1. Toxicity	Based on available data, the classification criteria are not met for hazardous to the aquatic environment.
12.2. Persistence and degradability	No data is available on the degradability of any ingredients in the mixture.
12.3. Bioaccumulative potential	
Partition coefficient n-octanol/water (log Kow)	Not available.
Bioconcentration factor (BCF)	Not available.
12.4. Mobility in soil	No data available.
12.5. Results of PBT and vPvB assessment	This mixture does not contain substances assessed to be vPvB / PBT according to Regulation (EC) No 1907/2006, Annex XIII.
12.6. Endocrine disrupting properties	The product does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.
12.7. Other adverse effects	No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.
SECTION 13: Disposal co	nsiderations
SECTION 13: Disposal co 13.1. Waste treatment methods	nsiderations

Residual waste	Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).
Contaminated packaging	Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal.
EU waste code	The Waste code should be assigned in discussion between the user, the producer and the waste disposal company.
Disposal methods/information	Collect and reclaim or dispose in sealed containers at licensed waste disposal site.
Special precautions	Dispose in accordance with all applicable regulations.

## ADR

14.1. - 14.6.: Not regulated as dangerous goods.

## RID

14.1. - 14.6.: Not regulated as dangerous goods.

## ADN

14.1. - 14.6.: Not regulated as dangerous goods.

ΙΑΤΑ

14.1. - 14.6.: Not regulated as dangerous goods.

14.1. - 14.6.: Not regulated as dangerous goods.

## **14.7. Maritime transport in bulk** Not applicable.

according to IMO instrumer	its
SECTION 15: Regulate	ory information
15.1. Safety, health and env	rironmental regulations/legislation specific for the substance or mixture
EU regulations	
Regulation (EC) No. 10	05/2009 on substances that deplete the ozone layer, Annex I and II, as amended
Not listed.	
	021 On persistent organic pollutants (recast), as amended
Not listed. Regulation (FU) No. 649	9/2012 concerning the export and import of dangerous chemicals, Annex I, Part 1 as amended
Not listed.	
	9/2012 concerning the export and import of dangerous chemicals, Annex I, Part 2 as amended
Not listed.	
Regulation (EU) No. 649	9/2012 concerning the export and import of dangerous chemicals, Annex I, Part 3 as amended
Not listed.	
• • •	9/2012 concerning the export and import of dangerous chemicals, Annex V as amended
Not listed. Regulation (EC) No. 16(	6/2006 Annex II Pollutant Release and Transfer Registry, as amended
Not listed.	J2000 Annex il Foliulant Nelease and Transfer Negistry, as amended
	07/2006, REACH Article 59(10) Candidate List as currently published by ECHA
Not listed.	······································
Authorisations	
Regulation (EC) No. 19	07/2006, REACH Annex XIV Substances subject to authorization, as amended
Not listed.	
Restrictions on use	
Regulation (EC) No. 19	07/2006, REACH Annex XVII Substances subject to restriction on marketing and use as amended
Not listed.	
	n the protection of workers from the risks related to exposure to carcinogens and mutagens at
work, as amended.	
Not listed.	
Other EU regulations	
Directive 2012/18/EU or	n major accident hazards involving dangerous substances, as amended
Not listed.	
Other regulations	The product is classified and labelled in accordance with Regulation (EC) 1272/2008 (CLP Regulation) as amended. This Safety Data Sheet complies with the requirements of Regulation (EC) No 1907/2006, as amended.
National regulations	Follow national regulation for work with chemical agents in accordance with Directive 98/24/EC, as amended.
15.2. Chemical safety assessment	No Chemical Safety Assessment has been carried out.
SECTION 16: Other in	formation

## List of abbreviations

ADN: European Agreement Concerning the International Carriage of Dangerous Goods by Inland Waterways.
ADR: European Agreement concerning the International Carriage of Dangerous Goods by Road. CAS: Chemical Abstract Service.
CAS. Chemical Abstract Service. CEN: European Committee for Standardization.
IATA: International Air Transport Association.
IBC Code: International Code for the Construction and Equipment of Ships Carrying Dangerous
Chemicals in Bulk.
IMDG: International Maritime Dangerous Goods.
MARPOL: International Convention for the Prevention of Pollution from Ships.
PBT: Persistent, bioaccumulative and toxic.
RID: Regulations concerning the International Carriage of Dangerous Goods by Rail.
STEL: Short term exposure limit.
TWA: Time Weighted Average.
vPvB: Very persistent and very bioaccumulative.
