

# CHEMICAL PRODUCT SAFETY DATA SHEET

Prepared in accordance with GB/T 16483 and GB/T 17519.

Product name: NYOGEL 729F

Issue date: May-11-2011 Revision date: March-21-2023 Version #: 09 SDS No: NYOGEL 729F

English name of chemical	NYOGEL 729F	
Product Code	NYOGEL 729F	
Manufacturer/Supplier Address	Nye Lubricants, Inc. 12 Howland Road Fairhaven, MA 02719	
	United States	
Contact person Telephone	Nye Lubricants EH&S General Assistance	508-996-6721
e-mail	sds@nyelubricants.com	300-330-0721
Emergency telephone number	3E Online	800-451-8346
Recommended use and Limitation	ons on use	
Recommended use	Lubricating Grease	
Issue date	May-11-2011	
Revision date	March-21-2023	
Supersedes date	January-23-2020	
SECTION 2 Hazards ident	ification	
Emergency overview	Possible reproductive haza	ard.
GHS hazard categories		
Physical hazards	Not classified.	
Health hazards	Reproductive toxicity	Category 2
Environmental hazards	Not classified.	
Label elements		
Pictograms		
Signal word	Warning	
Hazard statement		
H361	Suspected of damaging fer	rtility or the unborn child.
Precautionary statement		
Prevention		
P201 P202 P280	Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Wear protective gloves/protective clothing/eye protection/face protection.	
Response		
P308 + P313	IF exposed or concerned:	Get medical advice/attention.
Safety storage		
P405	Store locked up.	
Disposal		
P501	Dispose of contents/container in accordance with local/regional/national/international regulations.	
Physical and chemical hazards		
Health hazards	Expected to be a low ingestion hazard. Direct contact with eyes may cause temporary irritation.	

#### Environmental hazards

The product is not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment. None

Supplemental information

None.

### SECTION 8 Exposure controls/personal protection

#### **Exposure limits**

No exposure limits noted for ingredient(s).

Biological limit values	No biological exposure limits noted for the ingredient(s).	
Monitoring methods	Follow standard monitoring procedures.	
Engineering measures	Good general ventilation should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level.	
Personal protective equipment		
Respiratory protection	Chemical respirator with organic vapor cartridge and full facepiece.	
Hand protection	Wear appropriate chemical resistant gloves.	
Eye protection	Chemical respirator with organic vapor cartridge and full facepiece.	
Skin and body protection	Use of an impervious apron is recommended.	

Hygiene measures

Observe any medical surveillance requirements. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.

#### SECTION 9 Physical and chemical properties

88

Appearance	
Physical state	Liquid.
Form	Liquid.
Color	White
Odor	Not available.
рН	Not available.
Melting point/freezing point	Not available.
Boiling point, initial boiling point, and boiling range	Not available.
Flash point	474.8 °F (246.0 °C) ASTM D-92
Explosive limit - lower (%)	Not available.
Explosive limit - upper (%)	Not available.
Vapor pressure	Not available.
Vapor density	Not available.
Relative density	Not available.
Density	0.92 g/cm³
Solubility(ies)	
Solubility (water)	Not available.
Partition coefficient (n-octanol/water)	Not available.
Auto-ignition temperature	Not available.
Decomposition temperature	Not available.
Flammability (solid, gas)	Not applicable.
Other data	
Explosive properties	Not explosive.
Oxidizing properties	Not oxidizing.
Shelf life	4 years
Specific gravity	2.25 estimated

Reactivity         The product is stable and non-reactive under normal conditions of use, storage and transport.           Stability         Material is stable under normal conditions.           Possibility of hazardous         No dangerous reaction known under conditions of normal use.           Conditions to avoid         Contact with incompatible materials.           Incompatible materials         Strong oxidizing agents.           No tazardous decomposition         No hazardous decomposition products are known.           SECTION 11 Toxicological information         Acute toxicity           Routes of exposure         Not available.           Symptoms         Direct contact with eyes may cause temporary irritation.           Skin corrosion/irritation         Prolonged skin contact may cause temporary irritation.           Respiratory or skin sensitization         Not a respiratory sensitization           Respiratory or skin sensitization         Not a respiratory sensitization.           Gern cell mutagenicity         Not classified.           Specific target organ toxicity         Not classified or this ground.           No data available. However, this does not exclude the oposibility that large or frequent spills can have a harmful or damaging effect on the environment.Persistence and degradability BioaccumulationNo data available on the degradability of any ingredients in the mixture.BioaccumulationNo data available for this product.Mobility in soil	Respiratory or skin sensitization	
Germ cell mutagenicity       No data available to indicate product or any components present at greater than 0.1% are mutagenic or genotoxic.         Carcinogenicity       Not available.         Toxic to reproduction       Suspected of damaging fertility or the unborn child.         Specific target organ toxicity       Not classified.         following single exposure       Not classified.         Specific target organ toxicity       Not classified.         following repeated exposure       Not an aspiration hazard.         Aspiration hazard       Not an aspiration hazard.         Chronic effects       Not available.         SECTION 12 Ecological information       The product is not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.         Persistence and degradability       No data available for this product.         Mobility in soil       No data available for this product.         Other hazardous effects       No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.         SECTION 13 Disposal considerations       Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal is containers should be taken to an approved waste handling site for re	Respiratory sensitization	Not a respiratory sensitizer.
mutagenic or genotoxic.         Carcinogenicity       Not available.         Toxic to reproduction       Suspected of damaging fertility or the unborn child.         Specific target organ toxicity following single exposure       Not classified.         Specific target organ toxicity following repeated exposure       Not classified.         Aspiration hazard       Not an aspiration hazard.         Chronic effects       Not available.         SECTION 12 Ecological information       Ecotoxicity         Persistence and degradability       No data is available on the degradability of any ingredients in the mixture.         Nobility in soil       No data available.         Other hazardous effects       No data available.         Mobility in soil       No data available.         Mobility in soil       No data available.         Mobility in soil       No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.         SECTION 13 Disposal considerations       Since emptied containers may retain product residues. This material and its container must be disposed of in a safe manner (see: Disposa in furcutoris).         Contaminated packaging       Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal.	Skin sensitizer	This product is not expected to cause skin sensitization.
Toxic to reproduction         Suspected of damaging fertility or the unborn child.           Specific target organ toxicity following single exposure         Not classified.           Specific target organ toxicity following repeated exposure         Not classified.           Specific target organ toxicity following repeated exposure         Not classified.           Aspiration hazard         Not an aspiration hazard.           Chronic effects         Not available.           SECTION 12 Ecological information         Ecotoxicity           Presistence and degradability         The product is not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.           Mobility in soil         No data available on the degradability of any ingredients in the mixture.           Mobility in soil         No data available for this product.           Other hazardous effects         No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.           SECTION 13 Disposal considerations         Bispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).           Contaminated packaging         Since emptied containers may retain product residue, follow label warnings even after container is emptied.	Germ cell mutagenicity	
Specific target organ toxicity following single exposure       Not classified.         Specific target organ toxicity following repeated exposure       Not classified.         Specific target organ toxicity following repeated exposure       Not classified.         Aspiration hazard       Not an aspiration hazard.         Chronic effects       Not available.         SECTION 12 Ecological information       Ecotoxicity         The product is not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.
