# SAFETY DATA SHEET

Version #: 05 Issue date: 12-05-2013 Revision date: 09-07-2024 Supersedes date: 08-31-2014

## SECTION 1: Identification of the substance/mixture and of the company/undertaking

| 1.1. Product identifier                  |   |
|--|---|
| Trade name or designation of the mixture | NYOGEL 774VL  |
| Synonyms                                 | None.   |
| Product code                             | NYOGEL 774VL  |
| 1.2. Relevant identified uses of         | the substance or mixture and uses advised against                         |
| Identified uses                          | Lubricating grease  |
| Uses advised against                     | None known.   |
| 1.3. Details of the supplier of th       | ne safety data sheet  |
| Company name                             | FUCHS LUBRICANTS GERMANY GmbH   |
| Address                                  | Friesenheimer Str. 19   |
|  | 68169 Mannheim  |
|  | Germany   |
| Telephone                                | +49 621 3701-0  |
| E-mail                                   | produktsicherheit-FLG@fuchs.com   |
| Emergency telephone<br>number            | +1 760 476 3962   |
| Access Code                              | 334212  |
| Manufacturer                             | Nye Lubricants, Inc. A member of the FUCHS Group<br>www.nyelubricants.com |
|  |   |

## SECTION 2: Hazards identification

#### 2.1. Classification of the substance or mixture

The mixture has been assessed and/or tested for its physical, health and environmental hazards and the following classification applies.

#### Classification according to Regulation (EC) No 1272/2008 as amended

This mixture does not meet the criteria for classification according to Regulation (EC) 1272/2008 as amended.

#### 2.2. Label elements

#### Label according to Regulation (EC) No. 1272/2008 as amended

| Hazard pictograms              | None.  |
|--------------------------------|--|
| Signal word                    | None.  |
| Hazard statements              | The mixture does not meet the criteria for classification.   |
| Precautionary statements       |  |
| Prevention                     | Observe good industrial hygiene practices.   |
| Response                       | Wash hands after handling.   |
| Storage                        | Store away from incompatible materials.  |
| Disposal                       | Dispose of waste and residues in accordance with local authority requirements.   |
| Supplemental label information | EUH210 - Safety data sheet available on request.   |
| 2.3. Other hazards             | This mixture does not contain substances assessed to be vPvB / PBT according to Regulation (EC) No 1907/2006, Annex XIII. The mixture does not contain any substances included in the list established in accordance with REACH Article 59(1) for having endocrine disrupting properties at a concentration equal to or greater than 0.1% by weight. |

### SECTION 3: Composition/information on ingredients

#### 3.2. Mixtures

| Chemical name  | %  | CAS-No. / EC No.         | <b>REACH Registration No.</b>     | Index No. Notes            |
|--|--|--------------------------|-----------------------------------|----------------------------|

| #: This substance has been a   | ssigned Union work   | place exposure limit     | s).                               |                            |
| All concentrations are in perce  | ent by weight unles  | s ingredient is a gas.   | Gas concentrations are in pe      | ercent by volume.          |
| composition comments   | The full text for a  | I H-statements is dis    | played in section 16.             |                            |
| SECTION 4: First aid mea   | sures  |                          |                                   |                            |
| General information  | Ensure that medi protect themselve   |                          | are of the material(s) involve    | d, and take precautions to |
| .1. Description of first aid meas  | sures  |                          |                                   |                            |
| Inhalation   | Move to fresh air.   | Call a physician if sy   | mptoms develop or persist.        |                            |
| Skin contact   | Wash off with soa  | ap and water. Get me     | dical attention if irritation dev | elops and persists.        |
| Eye contact  | Rinse with water. Get medical attention if irritation develops and persists. |                          |                                   |                            |
| Ingestion  | Rinse mouth. Ge  | t medical attention if   | symptoms occur.                   |                            |
| .2. Most important symptoms<br>and effects, both acute and<br>lelayed                | Exposure may ca  | use temporary irritati   | on, redness, or discomfort.       |                            |
| I.3. Indication of any<br>mmediate medical attention<br>and special treatment needed | Treat symptomat  | cally.                   |                                   |                            |
| SECTION 5: Firefighting r  | neasures   |                          |                                   |                            |
| General fire hazards   |  | r explosion hazards r    | noted.                            |                            |
| 5.1. Extinguishing media   |  |                          |                                   |                            |
| Suitable extinguishing<br>media  | Water fog. Foam  | Dry chemical powde       | r. Carbon dioxide (CO2).          |                            |
| Unsuitable extinguishing media   | Do not use water   | jet as an extinguishe    | r, as this will spread the fire.  |                            |
| 5.2. Special hazards arising rom the substance or mixture                            | During fire, gases   | hazardous to health      | may be formed.                    |                            |
| 5.3. Advice for firefighters   |  |                          |                                   |                            |
| Special protective equipment for firefighters  | Self-contained br  | eathing apparatus ar     | d full protective clothing mus    | t be worn in case of fire. |
| Special fire fighting<br>procedures  |  | to cool unopened cor     |                                   |                            |
| Specific methods   | Use standard fire  | fighting procedures a    | nd consider the hazards of o      | ther involved materials.   |
| SECTION 6: Accidental re   | lease measure  | S                        |                                   |                            |
| 6.1. Personal precautions, prote   | ctive equipment a  | nd emergency proc        | edures                            |                            |
| For non-emergency personnel  |  | personal protective      |                                   |                            |

| personnel   |  |
|---|--|
| For emergency responders                                  | Keep unnecessary personnel away. For personal protection, see section 8 of the SDS.                    |
| 6.2. Environmental precautions                            | Avoid discharge into drains, water courses or onto the ground.   |
| 6.3. Methods and material for containment and cleaning up | Stop the flow of material, if this is without risk. Following product recovery, flush area with water. |

| sections                                      |   |
|---|---|
| SECTION 7: Handling and                       | d storage   |
| 7.1. Precautions for safe handling            | Observe good industrial hygiene practices.  |
| 7.2. Conditions for safe                      | Store in tightly closed container. Store away from incompatible materials (see Section 10 of the  |
| storage, including any<br>incompatibilities   | SDS).<br>Storage class (TRGS 510): 11 (Combustible solids that cannot be assigned to any of the above<br>storage classes)   |
| 7.3. Specific end use(s)                      | Observe industrial sector guidance on best practices.   |
| SECTION 8: Exposure co                        | ontrols/personal protection   |
| 8.1. Control parameters                       |   |
| Occupational exposure limits                  | No exposure limits noted for ingredient(s).   |
| Biological limit values                       | No biological exposure limits noted for the ingredient(s).  |
| Recommended monitoring<br>procedures          | Follow standard monitoring procedures.  |
| Derived no effect levels<br>(DNELs)           | Not available.  |
| Predicted no effect<br>concentrations (PNECs) | Not available.  |
| 8.2. Exposure controls                        |   |
| Appropriate engineering<br>controls           | Good general ventilation should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. |
| Individual protection measures                | , such as personal protective equipment   |
| General information                           | Personal protection equipment should be chosen according to the CEN standards and in<br>discussion with the supplier of the personal protective equipment.  |
| Eye/face protection                           | Wear safety glasses with side shields (or goggles).   |
| Skin protection                               |   |
| - Hand protection                             | Wear appropriate chemical resistant gloves.   |
| - Other                                       | Wear suitable protective clothing.  |
| <b>Respiratory protection</b>                 | In case of insufficient ventilation, wear suitable respiratory equipment.   |
| Thermal hazards                               | Wear appropriate thermal protective clothing, when necessary.   |
|   |   |
| Hygiene measures                              | Always observe good personal hygiene measures, such as washing after handling the material<br>and before eating, drinking, and/or smoking. Routinely wash work clothing and protective<br>equipment to remove contaminants.   |
| Environmental exposure<br>controls            | Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. Fume scrubbers, filters or engineering modifications to the process equipment may be necessary to reduce emissions to acceptable levels.  |
| SECTION 9: Physical and                       | l chemical properties   |
| 9.1. Information on basic physic              | cal and chemical properties   |
| Physical state                                | Solid.  |
| Form  | Solid. Semi-solid   |
| Colour  | Tan, Light brown,   |

| Form  | Solid. Semi-solid |  |
|---|-------------------|--|
| Colour  | Tan. Light brown. |  |
| Odour   | Not available.    |  |
| Melting point/freezing point                                | Not available.    |  |
| Boiling point or initial boiling<br>point and boiling range | Not available.    |  |
| Flammability  | Not available.    |  |
| Upper/lower flammability or explosive limits                |                   |  |

Explosive limit - lower (%) Not available.

| Explosive limit – upper<br>(%)                            | Not available.  |
|---|---|
| Flash point   | Not available.  |
| Auto-ignition temperature                                 | Not available.  |
| Decomposition temperature                                 | Not available.  |
| рН  | Not available.  |
| Kinematic viscosity                                       | Not available.  |
| Solubility  |   |
| Solubility (water)  | Not available.  |
| Partition coefficient<br>(n-octanol/water) (log value)    | Not available.  |
| Vapour pressure   | Not available.  |
| Density and/or relative density                           |   |
| Density   | 0,86 g/cm³  |
| Vapour density  | Not available.  |
| Particle characteristics                                  | Not available.  |
| 9.2. Other information                                    |   |
| 9.2.1. Information with regard to physical hazard classes | No relevant additional information available.   |
| 9.2.2. Other safety characteristic<br>Shelf life          | c <b>s</b><br>4 years   |
| SECTION 10: Stability and                                 | d reactivity  |
| 10.1. Reactivity  | The product is stable and non-reactive under normal conditions of use, storage and transport.                       |
| 10.2. Chemical stability                                  | Material is stable under normal conditions.   |
| 10.3. Possibility of hazardous reactions                  | No dangerous reaction known under conditions of normal use.   |
| 10.4. Conditions to avoid                                 | Contact with incompatible materials.  |
| 10.5. Incompatible materials                              | Strong oxidising agents.  |
| 10.6. Hazardous<br>decomposition products                 | No hazardous decomposition products are known.  |
| SECTION 11: Toxicologic                                   | al information  |
| General information                                       | Occupational exposure to the substance or mixture may cause adverse effects.  |
| Information on likely routes of e                         | xposure   |
| Inhalation  | No adverse effects due to inhalation are expected.  |
| Skin contact  | No adverse effects due to skin contact are expected.  |
| Eye contact   | Direct contact with eyes may cause temporary irritation.  |
| Ingestion   | May cause discomfort if swallowed. However, ingestion is not likely to be a primary route of occupational exposure. |
| Symptoms  | Exposure may cause temporary irritation, redness, or discomfort.  |
| 11.1. Information on hazard clas                          | ses as defined in Regulation (EC) No 1272/2008  |
| Acute toxicity  | No data available.  |
| Skin corrosion/irritation                                 | Due to partial or complete lack of data the classification is not possible.   |
| Serious eye damage/eye<br>irritation                      | Due to partial or complete lack of data the classification is not possible.   |
| Respiratory sensitisation                                 | Due to partial or complete lack of data the classification is not possible.   |
| Skin sensitisation  | Due to partial or complete lack of data the classification is not possible.   |
| Germ cell mutagenicity                                    | Due to partial or complete lack of data the classification is not possible.   |
| Carcinogenicity   | Due to partial or complete lack of data the classification is not possible.   |
| Reproductive toxicity                                     | Due to partial or complete lack of data the classification is not possible.   |
| Specific target organ toxicity - single exposure          | Due to partial or complete lack of data the classification is not possible.   |
| Specific target organ toxicity -                          | Due to partial or complete lack of data the classification is not possible.   |

repeated exposure

Due to partial or complete lack of data the classification is not possible.

Aspiration hazard

Mixture versus substance information

11.2. Information on other hazards **Endocrine disrupting** This mixture does not contain any substances having endocrine disrupting properties with respect to human health as assessed in accordance with the criteria set out in Regulations (EC) No properties 1907/2006, (EU) No 2017/2100 and (EU) 2018/605, at a concentration equal to or greater than 0.1% by weight. Not available. Other information SECTION 12: Ecological information 12.1. Toxicity Based on available data, the classification criteria are not met for hazardous to the aquatic environment No data is available on the degradability of any ingredients in the mixture. 12.2. Persistence and degradability 12.3. Bioaccumulative potential Not available. **Partition coefficient** n-octanol/water (log Kow) Not available. **Bioconcentration factor (BCF)** 12.4. Mobility in soil No data available. This mixture does not contain substances assessed to be vPvB / PBT according to Regulation 12.5. Results of PBT and vPvB (EC) No 1907/2006, Annex XIII. assessment This mixture does not contain any substances having endocrine disrupting properties with respect 12.6. Endocrine disrupting to the environment as assessed in accordance with the criteria set out in Regulations (EC) No properties 1907/2006, (EU) No 2017/2100 and (EU) 2018/605, at a concentration equal to or greater than 0.1% by weight. 12.7. Other adverse effects No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.

## SECTION 13: Disposal considerations

| 13.1. Waste treatment methods |  |
|-------------------------------|--|
| Residual waste                | Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions). |
| Contaminated packaging        | Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal.       |
| EU waste code                 | The Waste code should be assigned in discussion between the user, the producer and the waste disposal company.   |
| Disposal methods/information  | Collect and reclaim or dispose in sealed containers at licensed waste disposal site.   |
| Special precautions           | Dispose in accordance with all applicable regulations.   |

## SECTION 14: Transport information

## SECTION 15: Regulatory information

according to IMO instruments

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

#### **EU** regulations

Regulation (EC) No. 1005/2009 on substances that deplete the ozone layer, Annex I and II, as amended Not listed.

Regulation (EU) 2019/1021 On persistent organic pollutants (recast), as amended Not listed.

Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex I, Part 1 as amended Not listed.

Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex I, Part 2 as amended Not listed.

Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex I, Part 3 as amended Not listed.

Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex V as amended Not listed.

Regulation (EC) No. 166/2006 Annex II Pollutant Release and Transfer Registry, as amended Not listed.

Regulation (EC) No. 1907/2006, REACH Article 59(10) Candidate List as currently published by ECHA Not listed.

Authorisations

| Regulation (EC) No. 190<br>Not listed.    | 07/2006, REACH Annex XIV Substances subject to authorization, as amended  |
|---|---|
| Restrictions on use                       |   |
| •   | 07/2006, REACH Annex XVII Substances subject to restriction on marketing and use, as amended on given for the associated entry number should be considered  |
| Not listed.                               |   |
| Directive 2004/37/EC: o work, as amended. | n the protection of workers from the risks related to exposure to carcinogens and mutagens at   |
| Not listed.                               |   |
| Regulation 2019/1148 o                    | n Marketing and Use of Explosive Precursors, Annex I, as amended  |
| Not listed.                               |   |
| Regulation 2019/1148 o                    | n Marketing and Use of Explosive Precursors, Annex II, as amended   |
| Not listed.                               |   |
| Other regulations                         | The product is classified and labelled in accordance with Regulation (EC) 1272/2008 (CLP Regulation) as amended. This Safety Data Sheet complies with the requirements of Regulation (EC) No 1907/2006, as amended. |
| National regulations                      | Follow national regulation for work with chemical agents in accordance with Directive 98/24/EC, as amended.   |
| 15.2. Chemical safety<br>assessment       | No Chemical Safety Assessment has been carried out.   |
| SECTION 16: Other int                     | formation   |

| List of abbreviations   |   |
|---|---|
|   | ADN: European Agreement Concerning the International Carriage of Dangerous Goods by Inland Waterways.   |
|   | ADR: Agreement concerning the International Carriage of Dangerous Goods by Road.<br>CAS: Chemical Abstract Service.   |
|   | CEN: European Committee for Standardization.  |
|   | IATA: International Air Transport Association.  |
|   | IBC Code: International Code for the Construction and Equipment of Ships Carrying Dangerous<br>Chemicals in Bulk.   |
|   | IMDG: International Maritime Dangerous Goods.   |
|   | MARPOL: International Convention for the Prevention of Pollution from Ships.  |
|   | PBT: Persistent, bioaccumulative and toxic.   |
|   | RID: Regulations concerning the International Carriage of Dangerous Goods by Rail.<br>STEL: Short term exposure limit.  |
|   | TWA: Time Weighted Average.   |
|   | vPvB: Very persistent and very bioaccumulative.   |
| References  | Not available.  |
| Information on evaluation<br>method leading to the<br>classification of mixture | The classification for health and environmental hazards is derived by a combination of calculation methods and test data, if available.   |
| Full text of any statements, which are not written out in full                  |   |
| under sections 2 to 15  | H304 May be fatal if swallowed and enters airways.  |
|   | H361 Suspected of damaging fertility or the unborn child.   |
|   | H412 Harmful to aquatic life with long lasting effects.   |
