

SAFETY DATA SHEET

Version #: 04 Issue date: 02-06-2014 Revision date: 11-15-2023 Supersedes date: 05-20-2019

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1. Product identifier		
Trade name or designation of the mixture	NYOGEL 774F-MS	
Registration number	-	
Synonyms	None.	
Product code	NYOGEL 774F-MS	
1.2. Relevant identified uses of t	he substance or mixture and us	ses advised against
Identified uses	Lubricating grease	
Uses advised against	None known.	
1.3. Details of the supplier of the	e safety data sheet	
Supplier		
Company name	Nye Lubricants, Inc.	
Address	12 Howland Road	
	Fairhaven, MA 02719	
	United States	
Division		
Telephone	General Assistance	+1-508-996-6721
e-mail	sds@nyelubricants.com	
Contact person	Not available.	
1.4. Emergency telephone number	3E Online	+1-800-451-8346

SECTION 2: Hazards identification

2.1. Classification of the substance or mixture

The mixture has been assessed and/or tested for its physical, health and environmental hazards and the following classification applies.

Classification according to Regulation (EC) No 1272/2008 as amended

This mixture does not meet the criteria for classification according to Regulation (EC) 1272/2008 as amended.

2.2. Label elements

Label according to Regulation (EC) No. 1272/2008 as amended

Hazard pictograms	None.
Signal word	None.
Hazard statements	The mixture does not meet the criteria for classification.
Precautionary statements	
Prevention	Observe good industrial hygiene practices.
Response	Wash hands after handling.
Storage	Store away from incompatible materials.
Disposal	Dispose of waste and residues in accordance with local authority requirements.
Supplemental label information	None.
2.3. Other hazards	This mixture does not contain substances assessed to be vPvB / PBT according to Regulation (EC) No 1907/2006, Annex XIII. The product does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.

SECTION 3: Composition/information on ingredients

3.2. Mixtures

			if irritation develops and p	
Ingestion	Rinse mouth. Get	medical attention if s	ymptoms occur.	
2. Most important symptoms d effects, both acute and layed	Exposure may cau	use temporary irritatio	on, redness, or discomfort.	
 Indication of any mediate medical attention d special treatment needed 	Treat symptomatio	cally.		
ECTION 5: Firefighting me	easures			
		explosion hazards n	oted.	
. Extinguishing media			r. Carbon dioxide (CO2).	
Unsuitable extinguishing	Do not use water j	jet as an extinguishe	r, as this will spread the fire	9.
	During fire, gases	hazardous to health	may be formed.	
8. Advice for firefighters Special protective S equipment for firefighters	Self-contained bre	eathing apparatus and	d full protective clothing mu	ust be worn in case of fire.
Special fire fighting	Use water spray to	o cool unopened con	tainers.	
ecific methods	Use standard firefi	ighting procedures a	nd consider the hazards of	other involved materials.
ECTION 6: Accidental rele	ase measures	S		

6.1. Personal precautions, protective equipment and emergency procedures For non-emergency Wear appropriate personal protective equipment. personnel

_			
For emergency responders		For personal protection, see section 8 of the SDS.	
6.2. Environmental precautions 6.3. Methods and material for	Avoid discharge into drains, water courses or onto the ground. Stop the flow of material, if this is without risk. Following product recovery, flush area with water.		
containment and cleaning up	For personal protection, see section 8 of the SDS. For waste disposal, see section 13 of the SDS.		
6.4. Reference to other sections			
SECTION 7: Handling and	storage		
7.1. Precautions for safe handling	Avoid prolonged exposure. Observe	good industrial hygiene practices.	
7.2. Conditions for safe storage, including any incompatibilities	Store in tightly closed container. Store away from incompatible materials (see Section 10 of the SDS).		
7.3. Specific end use(s)	Not available.		
SECTION 8: Exposure cor	ntrols/personal protection		
8.1. Control parameters			
Occupational exposure limits Finland. Workplace Exposur Components	re Limits Type	Value	
Silica, amorphous, fumed,	TWA	5 mg/m3	
crystal-free (CAS 112945-52-5)		o ing/ino	
Biological limit values	No biological exposure limits noted for	or the ingredient(s).	
Recommended monitoring procedures	Follow standard monitoring procedure	es.	
Derived no effect levels (DNELs)	Not available.		
Predicted no effect concentrations (PNECs)	Not available.		
8.2. Exposure controls			
Appropriate engineering controls	Good general ventilation should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level.		
Individual protection measures,	such as personal protective equipm	ent	
General information	Personal protection equipment should be chosen according to the CEN standards and in discussion with the supplier of the personal protective equipment.		
Eye/face protection	Wear safety glasses with side shields	s (or goggles).	
Skin protection			
- Hand protection	Wear appropriate chemical resistant	gloves.	
- Other	Wear suitable protective clothing.		
Respiratory protection	In case of insufficient ventilation, wear suitable respiratory equipment.		
Thermal hazards	Wear appropriate thermal protective of	clothing, when necessary.	
Hygiene measures		ne measures, such as washing after handling the material noking. Routinely wash work clothing and protective	
Environmental exposure controls	Emissions from ventilation or work pr with the requirements of environment	ocess equipment should be checked to ensure they comply al protection legislation. Fume scrubbers, filters or ess equipment may be necessary to reduce emissions to	
SECTION 9: Physical and	abamical properties		

9.1. Information on basic physical and chemical properties

Physical state Solid. Solid.

Colour	Not available.
Odour	Not available.
Melting point/freezing point	2375 °C (4307 °F) estimated
Boiling point or initial boiling point and boiling range	450 °C (842 °F) estimated
Flammability (solid, gas)	Not available.
Flash point	> 200,0 °C (> 392,0 °F) ASTM D-92
Auto-ignition temperature	Not available.
Decomposition temperature	Not available.
рН	Not available.
Solubility(ies)	
Solubility (water)	Not available.
Partition coefficient (n-octanol/water)	Not available.
Vapour pressure	0,00001 hPa estimated
Vapour density	Not available.
Relative density	Not available.
Particle characteristics	Not available.
9.2. Other information	
9.2.1. Information with regard to physical hazard classes	No relevant additional information available.
9.2.2. Other safety characteristi	
Density	0,93 g/cm ³
Explosive properties Oxidising properties	Not explosive. Not oxidising.
Shelf life	4 years
Specific gravity	3.83 estimated
SECTION 10: Stability and	
10.1. Reactivity	The product is stable and non-reactive under normal conditions of use, storage and transport.
10.1. Reactivity 10.2. Chemical stability	The product is stable and non-reactive under normal conditions of use, storage and transport. Material is stable under normal conditions.
10.1. Reactivity	The product is stable and non-reactive under normal conditions of use, storage and transport.
10.1. Reactivity 10.2. Chemical stability 10.3. Possibility of hazardous	The product is stable and non-reactive under normal conditions of use, storage and transport. Material is stable under normal conditions.
10.1. Reactivity 10.2. Chemical stability 10.3. Possibility of hazardous reactions	The product is stable and non-reactive under normal conditions of use, storage and transport. Material is stable under normal conditions. No dangerous reaction known under conditions of normal use. Contact with incompatible materials. Strong oxidising agents.
10.1. Reactivity 10.2. Chemical stability 10.3. Possibility of hazardous reactions 10.4. Conditions to avoid	The product is stable and non-reactive under normal conditions of use, storage and transport. Material is stable under normal conditions. No dangerous reaction known under conditions of normal use. Contact with incompatible materials.
10.1. Reactivity 10.2. Chemical stability 10.3. Possibility of hazardous reactions 10.4. Conditions to avoid 10.5. Incompatible materials 10.6. Hazardous	The product is stable and non-reactive under normal conditions of use, storage and transport. Material is stable under normal conditions. No dangerous reaction known under conditions of normal use. Contact with incompatible materials. Strong oxidising agents. No hazardous decomposition products are known.
 10.1. Reactivity 10.2. Chemical stability 10.3. Possibility of hazardous reactions 10.4. Conditions to avoid 10.5. Incompatible materials 10.6. Hazardous decomposition products 	The product is stable and non-reactive under normal conditions of use, storage and transport. Material is stable under normal conditions. No dangerous reaction known under conditions of normal use. Contact with incompatible materials. Strong oxidising agents. No hazardous decomposition products are known.
10.1. Reactivity 10.2. Chemical stability 10.3. Possibility of hazardous reactions 10.4. Conditions to avoid 10.5. Incompatible materials 10.6. Hazardous decomposition products SECTION 11: Toxicologic	The product is stable and non-reactive under normal conditions of use, storage and transport. Material is stable under normal conditions. No dangerous reaction known under conditions of normal use. Contact with incompatible materials. Strong oxidising agents. No hazardous decomposition products are known. al information Occupational exposure to the substance or mixture may cause adverse effects.
10.1. Reactivity 10.2. Chemical stability 10.3. Possibility of hazardous reactions 10.4. Conditions to avoid 10.5. Incompatible materials 10.6. Hazardous decomposition products SECTION 11: Toxicologic General information	The product is stable and non-reactive under normal conditions of use, storage and transport. Material is stable under normal conditions. No dangerous reaction known under conditions of normal use. Contact with incompatible materials. Strong oxidising agents. No hazardous decomposition products are known. al information Occupational exposure to the substance or mixture may cause adverse effects.
10.1. Reactivity 10.2. Chemical stability 10.3. Possibility of hazardous reactions 10.4. Conditions to avoid 10.5. Incompatible materials 10.6. Material name: NYOGEL 774F-MS

12.7. Other adverse effects	No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.
12.6. Endocrine disrupting properties	The product does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.
12.5. Results of PBT and vPvB assessment	This mixture does not contain substances assessed to be vPvB / PBT according to Regulation (EC) No 1907/2006, Annex XIII.
12.4. Mobility in soil	No data available.
Bioconcentration factor (BCF)	Not available.
Partition coefficient n-octanol/water (log Kow)	Not available.
12.3. Bioaccumulative potential	
12.2. Persistence and degradability	No data is available on the degradability of any ingredients in the mixture.
12.1. Toxicity	Based on available data, the classification criteria are not met for hazardous to the aquatic environment.
SECTION 12: Ecological in	nformation
Other information	Not available.
Endocrine disrupting properties	The product does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.
11.2. Information on other hazard	ds
Mixture versus substance information	No information available.
Aspiration hazard	Due to partial or complete lack of data the classification is not possible.
Specific target organ toxicity - repeated exposure	Due to partial or complete lack of data the classification is not possible.
Specific target organ toxicity - single exposure	Due to partial or complete lack of data the classification is not possible.
Neproductive toxicity	Due to partial or complete lack of data the classification is not possible.
Reproductive toxicity	Due to partial as complete leak of data the classification is not possible

SECTION 13: Disposal considerations

13.1. Waste treatment methods	
Residual waste	Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).
Contaminated packaging	Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal.
EU waste code	The Waste code should be assigned in discussion between the user, the producer and the waste disposal company.
Disposal methods/information	Collect and reclaim or dispose in sealed containers at licensed waste disposal site.
Special precautions	Dispose in accordance with all applicable regulations.

SECTION 14: Transport information

ADR

14.1. - 14.6.: Not regulated as dangerous goods.

RID

14.1. - 14.6.: Not regulated as dangerous goods.

ADN

14.1. - 14.6.: Not regulated as dangerous goods.

14.1. - 14.6.: Not regulated as dangerous goods.

IMDG

14.1. - 14.6.: Not regulated as dangerous goods.

14.7. Maritime transport in bulk Not applicable.

according to IMO instruments

SECTION 15: Regulatory information

15.1. Safety, health and env	rironmental regulations/legislation specific for the substance or mixture
EU regulations	
Regulation (EC) No. 10 Not listed.	05/2009 on substances that deplete the ozone layer, Annex I and II, as amended
Regulation (EU) 2019/1	021 On persistent organic pollutants (recast), as amended
	9/2012 concerning the export and import of dangerous chemicals, Annex I, Part 1 as amended
• • •	9/2012 concerning the export and import of dangerous chemicals, Annex I, Part 2 as amended
Not listed. Regulation (EU) No. 64 Not listed.	9/2012 concerning the export and import of dangerous chemicals, Annex I, Part 3 as amended
	9/2012 concerning the export and import of dangerous chemicals, Annex V as amended
	6/2006 Annex II Pollutant Release and Transfer Registry, as amended
	07/2006, REACH Article 59(10) Candidate List as currently published by ECHA
Authorisations	
	07/2006, REACH Annex XIV Substances subject to authorization, as amended
Restrictions on use
