SAFETY DATA SHEET

Version #: 07 Issue date: 12-05-2013 Revision date: 02-19-2025 Supersedes date: 01-22-2020

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1. Product identifier	
Trade name or designation of the mixture	NYOGEL 767A
Synonyms	None.
Product code	NYOGEL 767A
1.2. Relevant identified uses of	the substance or mixture and uses advised against
Identified uses	Lubricating grease
Uses advised against	None known.
1.3. Details of the supplier of the	ne safety data sheet
Company name	FUCHS LUBRICANTS GERMANY GmbH
Address	Friesenheimer Str. 19
	68169 Mannheim
	Germany
Telephone	+49 621 3701-0
E-mail	produktsicherheit-FLG@fuchs.com
Emergency telephone number	+1 760 476 3962
Access Code	334212
Manufacturer	Nye Lubricants, Inc. A member of the FUCHS Group
	www.nyelubricants.com

SECTION 2: Hazards identification

2.1. Classification of the substance or mixture

The mixture has been assessed and/or tested for its physical, health and environmental hazards and the following classification applies.

Classification according to Regulation (EC) No 1272/2008 as amended

This mixture does not meet the criteria for classification according to Regulation (EC) 1272/2008 as amended.

2.2. Label elements

Label according to Regulation (EC) No. 1272/2008 as amended

Hazard pictograms	None.
Signal word	None.
Hazard statements	The mixture does not meet the criteria for classification.
Precautionary statements	
Prevention	Observe good industrial hygiene practices.
Response	Wash hands after handling.
Storage	Store away from incompatible materials.
Disposal	Dispose of waste and residues in accordance with local authority requirements.
Supplemental label information	EUH210 - Safety data sheet available on request.
2.3. Other hazards	This mixture does not contain substances assessed to be vPvB / PBT according to Regulation (EC) No 1907/2006, Annex XIII. The mixture does not contain any substances included in the list established in accordance with REACH Article 59(1) for having endocrine disrupting properties at a concentration equal to or greater than 0.1% by weight.

SECTION 3: Composition/information on ingredients

3.2. Mixtures

Chemical name	% CAS-No. / EC No. REACH Registration No. Index No. Notes
POLYPROPYLENE GLYCOL MONOBUTYLETHER	500-003-1
Classif	ication: Aquatic Chronic 3;H412
Benzenamine, N-phenyl-, read products with 2,4,4-trimethylp	
Classif	ication: Repr. 2;H361, Aquatic Chronic 3;H412
Other components below repo levels	ortable 90 - 100
ist of abbreviations and symbo	Is that may be used above
SECTION 4: First aid mea	sures
General information	Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves.
4.1. Description of first aid meas	sures
Inhalation	Move to fresh air. Call a physician if symptoms develop or persist.
Skin contact	Wash off with soap and water. Get medical attention if irritation develops and persists.
Eye contact	Rinse with water. Get medical attention if irritation develops and persists.
Ingestion	Rinse mouth. Get medical attention if symptoms occur.
4.2. Most important symptoms and effects, both acute and delayed	Exposure may cause temporary irritation, redness, or discomfort.
4.3. Indication of any immediate medical attention and special treatment needed	Treat symptomatically.
SECTION 5: Firefighting n	neasures
General fire hazards	No unusual fire or explosion hazards noted.
5.1. Extinguishing media Suitable extinguishing media	Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2).
Unsuitable extinguishing media	Do not use water jet as an extinguisher, as this will spread the fire.
5.2. Special hazards arising from the substance or mixture	During fire, gases hazardous to health may be formed.
5.3. Advice for firefighters Special protective equipment for firefighters	Self-contained breathing apparatus and full protective clothing must be worn in case of fire.
Special fire fighting procedures	Use water spray to cool unopened containers.
Specific methods	Use standard firefighting procedures and consider the hazards of other involved materials.
SECTION 6: Accidental re	lease measures
6.1. Personal precautions, prote	ctive equipment and emergency procedures
For non-emergency	Wear appropriate personal protective equipment.

For non-emergency personnel	Wear appropriate personal protective equipment.
For emergency responders	Keep unnecessary personnel away. For personal protection, see section 8 of the SDS.
6.2. Environmental precautions	Avoid discharge into drains, water courses or onto the ground.
6.3. Methods and material for containment and cleaning up	Stop the flow of material, if this is without risk. Following product recovery, flush area with water.
6.4. Reference to other sections	For personal protection, see section 8 of the SDS. For waste disposal, see section 13 of the SDS.

SECTION 7: Handling ar	nd storage		
7.1. Precautions for safe handling	Observe good industrial hygiene praction	ces.	
7.2. Conditions for safe storage, including any	Store in tightly closed container. Store a SDS).		
incompatibilities	Storage class (TRGS 510): 11 (Combus storage classes)	stible solids that cannot be a	assigned to any of the above
7.3. Specific end use(s)	Observe industrial sector guidance on b	best practices.	
SECTION 8: Exposure c	ontrols/personal protection		
8.1. Control parameters			
Occupational exposure limits			
V-824/A1-389), as amende	ional Exposure Limit Values for Chemica d	al Substances (Hygiene No	orm HN 23:2011; Order No.
Components	Туре	Value	Form
Silica, amorphous, fumed, crystal-free (CAS 112945-52-5)	TWA	5 mg/m3	Respirable fraction.
		10 mg/m3	Inhalable fraction.
Biological limit values	No biological exposure limits noted for t	the ingredient(s).	
Recommended monitoring procedures	Follow standard monitoring procedures		
Derived no effect levels (DNELs)	Not available.		
Predicted no effect concentrations (PNECs)	Not available.		
3.2. Exposure controls			
Appropriate engineering controls	Good general ventilation should be use applicable, use process enclosures, loc maintain airborne levels below recomm established, maintain airborne levels to	al exhaust ventilation, or oth ended exposure limits. If ex	ner engineering controls to
ndividual protection measure General information	s, such as personal protective equipmer Personal protection equipment should b	be chosen according to the	CEN standards and in
Eye/face protection	discussion with the supplier of the perso Wear safety glasses with side shields (
Skin protection			
- Hand protection	Wear appropriate chemical resistant glo	oves.	
- Other	Wear suitable protective clothing.		
Respiratory protection	In case of insufficient ventilation, wear s	suitable respiratory equipme	ent.
Thermal hazards	Wear appropriate thermal protective clo	thing, when necessary.	
Hygiene measures	Always observe good personal hygiene and before eating, drinking, and/or smo equipment to remove contaminants.	measures, such as washin king. Routinely wash work	g after handling the material clothing and protective
Environmental exposure controls	Emissions from ventilation or work proc with the requirements of environmental engineering modifications to the proces acceptable levels.	protection legislation. Fume	e scrubbers, filters or
SECTION 9: Physical an	d chemical properties		
9.1. Information on basic phys	ical and chemical properties		
Physical state	Solid.		
Form	Solid. Semi-solid		
Colour	Light yellow.		

ColourLight yellow.OdourNot available.Melting point/freezing pointNot available.

Boiling point or initial boiling		
point and boiling range	Not available.	
Flammability	Not available.	
Upper/lower flammability or exp		
Explosive limit - lower (%)	Not available.	
Explosive limit – upper (%)	Not available.	
Flash point	Not available.	
Auto-ignition temperature	Not available.	
Decomposition temperature	Not available.	
ЪН	Not available.	
Kinematic viscosity	Not available.	
Solubility		
Solubility (water)	Not available.	
Partition coefficient (n-octanol/water) (log value)	Not available.	
Vapour pressure	Not available.	
Density and/or relative density		
Density	0,87 g/cm³	
Vapour density	Not available.	
Particle characteristics	Not available.	
9.2. Other information		
9.2.1. Information with regard to physical hazard classes	No relevant additional information availab	le.
9.2.2. Other safety characteristic	cs	
Shelf life	4 years	
SECTION 10: Stability and	d reactivity	
10.1. Reactivity	The product is stable and non-reactive ur	nder normal conditions of use, storage and transport.
10.2. Chemical stability	Material is stable under normal conditions	
10.3. Possibility of hazardous reactions	No dangerous reaction known under cond	ditions of normal use.
10.4. Conditions to avoid	Contact with incompatible materials.	
10.4. Conultions to avoid		
	Strong oxidising agents.	
10.5. Incompatible materials 10.6. Hazardous	Strong oxidising agents. No hazardous decomposition products ar	e known.
10.5. Incompatible materials 10.6. Hazardous decomposition products	No hazardous decomposition products ar	e known.

Serious eye damage/eye irritation	Due to partial or complete lack of data the classification is not possible.
Respiratory sensitisation	Due to partial or complete lack of data the classification is not possible.
Skin sensitisation	Due to partial or complete lack of data the classification is not possible.
Germ cell mutagenicity	Due to partial or complete lack of data the classification is not possible.
Carcinogenicity	Due to partial or complete lack of data the classification is not possible.
Reproductive toxicity	Due to partial or complete lack of data the classification is not possible.
Specific target organ toxicity - single exposure	Due to partial or complete lack of data the classification is not possible.
Specific target organ toxicity - repeated exposure	Due to partial or complete lack of data the classification is not possible.
Aspiration hazard	Not an aspiration hazard.
Mixture versus substance information	No information available.
11.2. Information on other hazard	ds
Endocrine disrupting properties	This mixture does not contain any substances having endocrine disrupting properties with respect to human health as assessed in accordance with the criteria set out in Regulations (EC) No 1907/2006, (EU) No 2017/2100 and (EU) 2018/605, at a concentration equal to or greater than 0.1% by weight.
Other information	Not available.
SECTION 12: Ecological in	nformation
12.1. Toxicity	Based on available data, the classification criteria are not met for hazardous to the aquatic environment.
12.2. Persistence and degradability	No data is available on the degradability of any ingredients in the mixture.
12.3. Bioaccumulative potential	No data available.
Partition coefficient n-octanol/water (log Kow)	Not available.
Bioconcentration factor (BCF)	Not available.
12.4. Mobility in soil	No data available.
12.5. Results of PBT and vPvB assessment	This mixture does not contain substances assessed to be vPvB / PBT according to Regulation (EC) No 1907/2006, Annex XIII.
12.6. Endocrine disrupting properties	This mixture does not contain any substances having endocrine disrupting properties with respect to the environment as assessed in accordance with the criteria set out in Regulations (EC) No 1907/2006, (EU) No 2017/2100 and (EU) 2018/605, at a concentration equal to or greater than 0.1% by weight.
12.7. Other adverse effects	No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.
SECTION 13: Disposal co	nsiderations
13.1. Waste treatment methods	

Special precautions	Dispose in accordance with all applicable regulations.
Disposal methods/information	Collect and reclaim or dispose in sealed containers at licensed waste disposal site.
EU waste code	The Waste code should be assigned in discussion between the user, the producer and the waste disposal company.
Contaminated packaging	Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal.
Residual waste	Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).
13.1. Waste treatment methods
