SAFETY DATA SHEET

Version #: 30 Issue date: 07-01-2013 Revision date: 09-12-2024 Supersedes date: 08-27-2024

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1. Product identifier Trade name or designation of the mixture	NYOGEL 760G
Synonyms	None.
Product code	NYOGEL 760G
1.2. Relevant identified uses of t	he substance or mixture and uses advised against
Identified uses	Lubricating grease
Uses advised against	None known.
1.3. Details of the supplier of the	e safety data sheet
Company name	FUCHS LUBRICANTS GERMANY GmbH
Address	Friesenheimer Str. 19
	68169 Mannheim
	Germany
Telephone	+49 621 3701-0
E-mail	produktsicherheit-FLG@fuchs.com
Emergency telephone number	+1 760 476 3962
Access Code	334212
Manufacturer	Nye Lubricants, Inc. A member of the FUCHS Group www.nyelubricants.com

SECTION 2: Hazards identification

2.1. Classification of the substance or mixture

The mixture has been assessed and/or tested for its physical, health and environmental hazards and the following classification applies.

Classification according to Regulation (EC) No 1272/2008 as amended

This mixture does not meet the criteria for classification according to Regulation (EC) 1272/2008 as amended.

2.2. Label elements

Label according to Regulation (EC) No. 1272/2008 as amended

Hazard pictograms	None.
Signal word	None.
Hazard statements	The mixture does not meet the criteria for classification.
Precautionary statements	
Prevention	Observe good industrial hygiene practices.
Response	Wash hands after handling.
Storage	Store away from incompatible materials.
Disposal	Dispose of waste and residues in accordance with local authority requirements.
Supplemental label information	EUH208 - Contains 1H-Benzotriazole-1-methanamine, N,N-bis(2-ethylhexyl)-ar-methyl May produce an allergic reaction. EUH210 - Safety data sheet available on request.
2.3. Other hazards	This mixture does not contain substances assessed to be vPvB / PBT according to Regulation (EC) No 1907/2006, Annex XIII. The mixture does not contain any substances included in the list established in accordance with REACH Article 59(1) for having endocrine disrupting properties at a concentration equal to or greater than 0.1% by weight.

SECTION 3: Composition/information on ingredients

3.2. Mixtures

Chemical name	% C	AS-No. / EC No. R	EACH Registration No.	Index No. Notes
1H-Benzotriazole-1-methanan N,N-bis(2-ethylhexyl)-ar-meth	iine, < 0,2	94270-86-7 939-700-4	-	-
Classif	cation: Skin Irrit. 2;H Aquatic Chro		I317, Aquatic Acute 1;H4	·00(M=1),
Other components below repo levels	rtable 90 - 100			
ist of abbreviations and symbol ATE: Acute toxicity estimate. M: M-factor vPvB: very persistent and very PBT: persistent, bioaccumulat #: This substance has been as All concentrations are in perce	bioaccumulative subs ve and toxic substanc signed Union workpla	stance. e. ce exposure limit(s).	s concentrations are in p	ercent by volume.
SECTION 4: First aid mea	sures			
General information		personnel are aware	of the material(s) involve	ed, and take precautions to
.1. Description of first aid meas	•			
Inhalation		all a physician if symp	otoms develop or persist.	
Skin contact			al attention if irritation de	
Eye contact	Rinse with water. Ge	t medical attention if	irritation develops and pe	ersists.
Ingestion	Rinse mouth. Get me	edical attention if syn	ptoms occur.	
I.2. Most important symptoms and effects, both acute and lelayed	Exposure may cause	e temporary irritation,	redness, or discomfort.	
I.3. Indication of any mmediate medical attention and special treatment needed	Treat symptomatical	ly.		
SECTION 5: Firefighting n	easures			
General fire hazards	No unusual fire or ex	plosion hazards note	ed.	
5.1. Extinguishing media Suitable extinguishing media	Water fog. Foam. Dr	y chemical powder. (Carbon dioxide (CO2).	
Unsuitable extinguishing media	Do not use water jet	as an extinguisher, a	as this will spread the fire.	
5.2. Special hazards arising rom the substance or mixture	During fire, gases ha	zardous to health ma	ay be formed.	
5.3. Advice for firefighters Special protective equipment for firefighters	Self-contained breat	hing apparatus and f	all protective clothing mus	st be worn in case of fire.
Special fire fighting procedures	Use water spray to c	ool unopened contai	ners.	
Specific methods	Use standard firefigh	ting procedures and	consider the hazards of o	other involved materials.
SECTION 6: Accidental re	ease measures			
5.1. Personal precautions, prote For non-emergency personnel	ctive equipment and Wear appropriate pe			
For emergency responders	Keep unnecessarv p	ersonnel away. For r	personal protection, see s	section 8 of the SDS.
2. Environmental precautions			s or onto the ground.	
3.3. Methods and material for containment and cleaning up	-		-	ecovery, flush area with water.
6.4. Reference to other sections	For personal protect	on, see section 8 of	he SDS. For waste dispo	osal, see section 13 of the SD
SECTION 7: Handling and	storage			
7.1. Precautions for safe	Avoid prolonged exp	osure. Observe aooo	l industrial hygiene practi	ices.

7.2. Conditions for safe	Store in tightly closed container. Store away from incompatible materials (see Section 10 of the
storage, including any incompatibilities	SDS). Storage class (TRGS 510): 11 (Combustible solids that cannot be assigned to any of the above
	storage classes)

Observe industrial sector guidance on best practices.

7.3. Specific end use(s)

SECTION 8: Exposure controls/personal protection

8.1. Control parameters	
Occupational exposure limits	No exposure limits noted for ingredient(s).
Biological limit values	No biological exposure limits noted for the ingredient(s).
Recommended monitoring procedures	Follow standard monitoring procedures.
Derived no effect levels (DNELs)	Not available.
Predicted no effect concentrations (PNECs)	Not available.
8.2. Exposure controls	
Appropriate engineering controls	Good general ventilation should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level.
Individual protection measures,	, such as personal protective equipment
General information	Personal protection equipment should be chosen according to the CEN standards and in discussion with the supplier of the personal protective equipment.
Eye/face protection	Wear safety glasses with side shields (or goggles).
Skin protection	
- Hand protection	Wear appropriate chemical resistant gloves.
- Other	Wear suitable protective clothing.
Respiratory protection	In case of insufficient ventilation, wear suitable respiratory equipment.
Thermal hazards	Wear appropriate thermal protective clothing, when necessary.
Hygiene measures	Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.

Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. Fume scrubbers, filters or engineering modifications to the process equipment may be necessary to reduce emissions to acceptable levels.

SECTION 9: Physical and chemical properties

Environmental exposure

controls

9.1. Information on basic physical and chemical properties		
Physical state	Solid Semi-solid.	
Form	Solid.	
Colour	Yellow	
Odour	Not available.	
Melting point/freezing point	Not available.	
Boiling point or initial boiling point and boiling range	Not available.	
Flammability	Not available.	
Upper/lower flammability or explosive limits		
Explosive limit - lower (%)	Not available.	
Explosive limit – upper (%)	Not available.	
Flash point	Not available.	
Auto-ignition temperature	Not available.	
Decomposition temperature	Not available.	
Material name: NYOGEL 760G		SDS NETHERLANDS

рН	Not available.		
Kinematic viscosity	Not available.		
Solubility	Not available.		
Solubility (water) Partition coefficient	Not available.		
(n-octanol/water) (log value)			
Vapour pressure	Not available.		
Density and/or relative density			
Density	0,88		
Vapour density	Not available.		
Particle characteristics	Not available.		
9.2. Other information			
9.2.1. Information with regard to physical hazard classes	No relevant additional information available.		
9.2.2. Other safety characteristi	ics		
Dropping point	≥260 °C (≥500 °F)		
Shelf life	4 years		
SECTION 10: Stability an	d reactivity		
10.1. Reactivity	The product is stable and non-reactive under normal conditions of use, storage and transport.		
10.2. Chemical stability	Material is stable under normal conditions.		
10.3. Possibility of hazardous reactions	No dangerous reaction known under conditions of normal use.		
10.4. Conditions to avoid	Contact with incompatible materials.		
10.5. Incompatible materials	Strong oxidising agents.		
10.6. Hazardous decomposition products	No hazardous decomposition products are known.		
SECTION 11: Toxicologic	cal information		
General information	Occupational exposure to the substance or mixture may cause adverse effects.		
General information Information on likely routes of e Inhalation			
Information on likely routes of e	exposure May cause allergy or asthma symptoms or breathing difficulties if inhaled. Prolonged inhalation		
Information on likely routes of e Inhalation	exposure May cause allergy or asthma symptoms or breathing difficulties if inhaled. Prolonged inhalation may be harmful.		
Information on likely routes of e Inhalation Skin contact	exposure May cause allergy or asthma symptoms or breathing difficulties if inhaled. Prolonged inhalation may be harmful. May cause an allergic skin reaction.

Specific target organ toxicity - single exposure		
Specific target organ toxicity - repeated exposure	Due to partial or complete lack of data the classification is not possible.	
Aspiration hazard	Due to partial or complete lack of data the classification is not possible.	
Mixture versus substance information		
11.2. Information on other hazard	ds	
Endocrine disrupting properties	This mixture does not contain any substances having endocrine disrupting properties with respect to human health as assessed in accordance with the criteria set out in Regulations (EC) No 1907/2006, (EU) No 2017/2100 and (EU) 2018/605, at a concentration equal to or greater than 0.1% by weight.	
Other information	May cause allergic respiratory and skin reactions.	
SECTION 12: Ecological information		
12.1. Toxicity	Based on available data, the classification criteria are not met for hazardous to the aquatic environment.	
12.2. Persistence and degradability	No data is available on the degradability of any ingredients in the mixture.	
12.3. Bioaccumulative potential	No data available.	
Partition coefficient n-octanol/water (log Kow)	Not available.	

n-octanol/water (log Kow)	
Bioconcentration factor (BCF)	Not available.
12.4. Mobility in soil	No data available.
12.5. Results of PBT and vPvB assessment	This mixture does not contain substances assessed to be vPvB / PBT according to Regulation (EC) No 1907/2006, Annex XIII.
12.6. Endocrine disrupting properties	This mixture does not contain any substances having endocrine disrupting properties with respect to the environment as assessed in accordance with the criteria set out in Regulations (EC) No 1907/2006, (EU) No 2017/2100 and (EU) 2018/605, at a concentration equal to or greater than 0.1% by weight.
12.7. Other adverse effects	No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation

potential, endocrine disruption, global warming potential) are expected from this component.

SECTION 13: Disposal considerations

13.1. Waste treatment methods Dispose of in accordance with local regulations. Empty containers or liners may retain some **Residual waste** product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions). Since emptied containers may retain product residue, follow label warnings even after container is Contaminated packaging emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal. EU waste code The Waste code should be assigned in discussion between the user, the producer and the waste disposal company. **Disposal methods/information** Collect and reclaim or dispose in sealed containers at licensed waste disposal site. **Special precautions** Dispose in accordance with all applicable regulations.

SECTION 14: Transport information
