SAFETY DATA SHEET

Version #: 25 Issue date: 07-01-2013 Revision date: 09-12-2024 Supersedes date: 08-27-2024

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1. Product identifier Trade name or designation of the mixture	NYOGEL 760G
Synonyms	None.
Product code	NYOGEL 760G
1.2. Relevant identified uses of t	he substance or mixture and uses advised against
Identified uses	Lubricating grease
Uses advised against	None known.
1.3. Details of the supplier of the	e safety data sheet
Company name	FUCHS LUBRICANTS GERMANY GmbH
Address	Friesenheimer Str. 19
	68169 Mannheim
	Germany
Telephone	+49 621 3701-0
E-mail	produktsicherheit-FLG@fuchs.com
Emergency telephone number	+1 760 476 3962
Access Code	334212
Manufacturer	Nye Lubricants, Inc. A member of the FUCHS Group www.nyelubricants.com

SECTION 2: Hazards identification

2.1. Classification of the substance or mixture

The mixture has been assessed and/or tested for its physical, health and environmental hazards and the following classification applies.

Classification according to Regulation (EC) No 1272/2008 as amended

This mixture does not meet the criteria for classification according to Regulation (EC) 1272/2008 as amended.

2.2. Label elements

Label according to Regulation (EC) No. 1272/2008 as amended

Hazard pictograms	None.
Signal word	None.
Hazard statements	The mixture does not meet the criteria for classification.
Precautionary statements	
Prevention	Observe good industrial hygiene practices.
Response	Wash hands after handling.
Storage	Store away from incompatible materials.
Disposal	Dispose of waste and residues in accordance with local authority requirements.
Supplemental label information	EUH208 - Contains 1H-Benzotriazole-1-methanamine, N,N-bis(2-ethylhexyl)-ar-methyl May produce an allergic reaction. EUH210 - Safety data sheet available on request.
2.3. Other hazards	This mixture does not contain substances assessed to be vPvB / PBT according to Regulation (EC) No 1907/2006, Annex XIII. The mixture does not contain any substances included in the list established in accordance with REACH Article 59(1) for having endocrine disrupting properties at a concentration equal to or greater than 0.1% by weight.

SECTION 3: Composition/information on ingredients

3.2. Mixtures

General information					
Chemical name	%		. REACH Registration	No. Index No.	Notes
1H-Benzotriazole-1-methanar N,N-bis(2-ethylhexyl)-ar-meth	/l-	94270-86-7 939-700-4	-	-	
Classi		;H315, Skin Sens. 1 ironic 2;H411	B;H317, Aquatic Acute 2	I;H400(M=1),	
Other components below repo levels	ortable 90 - 100				
ist of abbreviations and symbo	Is that may be use	d above			
ATE: Acute toxicity estimate. M: M-factor vPvB: very persistent and ver PBT: persistent, bioaccumula					
#: This substance has been a All concentrations are in perce				in percent by volume	
SECTION 4: First aid mea	sures				
General information	Ensure that medic protect themselve		are of the material(s) inv	olved, and take preca	autions to
.1. Description of first aid meas	ures				
Inhalation	Move to fresh air.	Call a physician if s	ymptoms develop or per	sist.	
Skin contact	Wash off with soa	p and water. Get me	edical attention if irritation	n develops and persis	its.
Eye contact	Rinse with water.	Get medical attention	n if irritation develops ar	าd persists.	
Ingestion		medical attention if	• •		
I.2. Most important symptoms and effects, both acute and delayed	Exposure may ca	use temporary irritat	ion, redness, or discomfo	ort.	
4.3. Indication of any mmediate medical attention and special treatment needed	Treat symptomation	cally.			
SECTION 5: Firefighting n	neasures				
General fire hazards	No unusual fire or	explosion hazards	noted.		
5.1. Extinguishing media					
Suitable extinguishing media	-		er. Carbon dioxide (CO2		
Unsuitable extinguishing media			er, as this will spread the	fire.	
5.2. Special hazards arising rom the substance or mixture	During fire, gases	hazardous to health	n may be formed.		
5.3. Advice for firefighters Special protective equipment for firefighters	Self-contained bre	eathing apparatus a	nd full protective clothing	must be worn in case	e of fire.
Special fire fighting procedures	Use water spray t	o cool unopened co	ntainers.		
Specific methods	Use standard firef	ighting procedures a	and consider the hazards	s of other involved ma	iterials.
SECTION 6: Accidental re	lease measure	S			
6.1. Personal precautions, prote	ctive equipment a	nd emergency prod	edures		
For non-emergency personnel		personal protective			
For emergency responders	-		or personal protection, s		JS.
.2. Environmental precautions	-		irses or onto the ground.		
3.3. Methods and material for containment and cleaning up	·		out risk. Following produ	•	
6.4. Reference to other sections	For personal prote	ection, see section 8	of the SDS. For waste of	lisposal, see section	13 of the SDS
SECTION 7: Handling and	storage				
7.1. Precautions for safe handling	Avoid prolonged e	exposure. Observe o	ood industrial hygiene p	ractices	

7.2. Conditions for safe	Store in tightly closed container. Store away from incompatible materials (see Section 10 of the
storage, including any incompatibilities	SDS). Storage class (TRGS 510): 11 (Combustible solids that cannot be assigned to any of the above
	storage classes)

Observe industrial sector guidance on best practices.

7.3. Specific end use(s)

SECTION 8: Exposure controls/personal protection

•			
8.1. Control parameters			
Occupational exposure limits	No exposure limits noted for ingredient(s).		
Biological limit values	No biological exposure limits noted for the ingredient(s).		
Recommended monitoring procedures	Follow standard monitoring procedures.		
Derived no effect levels (DNELs)	Not available.		
Predicted no effect concentrations (PNECs)	Not available.		
8.2. Exposure controls			
Appropriate engineering controls	Good general ventilation should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level.		
Individual protection measures,	such as personal protective equipment		
General information	Personal protection equipment should be chosen according to the CEN standards and in discussion with the supplier of the personal protective equipment.		
Eye/face protection	Wear safety glasses with side shields (or goggles).		
Skin protection			
- Hand protection	Wear appropriate chemical resistant gloves.		
- Other	Wear suitable protective clothing.		
Respiratory protection	In case of insufficient ventilation, wear suitable respiratory equipment.		
Thermal hazards	Wear appropriate thermal protective clothing, when necessary.		
Hygiene measures	Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.		

Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. Fume scrubbers, filters or engineering modifications to the process equipment may be necessary to reduce emissions to acceptable levels.

SECTION 9: Physical and chemical properties

Environmental exposure

controls

9.1. Information on basic physic	al and chemical properties	
Physical state	Solid Semi-solid.	
Form	Solid.	
Colour	Yellow	
Odour	Not available.	
Melting point/freezing point	Not available.	
Boiling point or initial boiling point and boiling range	Not available.	
Flammability	Not available.	
Upper/lower flammability or exp	losive limits	
Explosive limit - lower (%)	Not available.	
Explosive limit – upper (%)	Not available.	
Flash point	Not available.	
Auto-ignition temperature	Not available.	
Decomposition temperature	Not available.	
Material name: NYOGEL 760G		SDS SLOVAKIA

рН	Not available.		
Kinematic viscosity	Not available.		
Solubility	Not available.		
Solubility (water) Partition coefficient	Not available.		
(n-octanol/water) (log value)			
Vapour pressure	Not available.		
Density and/or relative density			
Density	0,88		
Vapour density	Not available.		
Particle characteristics	Not available.		
9.2. Other information			
9.2.1. Information with regard to physical hazard classes	No relevant additional information available.		
9.2.2. Other safety characteristi	ics		
Dropping point	≥260 °C (≥500 °F)		
Shelf life	4 years		
SECTION 10: Stability an	d reactivity		
10.1. Reactivity	The product is stable and non-reactive under normal conditions of use, storage and transport.		
10.2. Chemical stability	Material is stable under normal conditions.		
10.3. Possibility of hazardous reactions	No dangerous reaction known under conditions of normal use.		
10.4. Conditions to avoid	Contact with incompatible materials.		
10.5. Incompatible materials	Strong oxidising agents.		
10.6. Hazardous decomposition products	No hazardous decomposition products are known.		
SECTION 11: Toxicologic	cal information		
General information	Occupational exposure to the substance or mixture may cause adverse effects.		
General information Information on likely routes of e Inhalation			
Information on likely routes of e	exposure May cause allergy or asthma symptoms or breathing difficulties if inhaled. Prolonged inhalation		
Information on likely routes of e Inhalation	exposure May cause allergy or asthma symptoms or breathing difficulties if inhaled. Prolonged inhalation may be harmful.		
Information on likely routes of e Inhalation Skin contact	exposure May cause allergy or asthma symptoms or breathing difficulties if inhaled. Prolonged inhalation may be harmful. May cause an allergic skin reaction.

Specific target organ toxicity - single exposure	Due to partial or complete lack of data the classification is not possible.	
Specific target organ toxicity - repeated exposure	Due to partial or complete lack of data the classification is not possible.	
Aspiration hazard	Due to partial or complete lack of data the classification is not possible.	
Mixture versus substance information	No information available.	
11.2. Information on other hazard	ds	
Endocrine disrupting properties	This mixture does not contain any substances having endocrine disrupting properties with respect to human health as assessed in accordance with the criteria set out in Regulations (EC) No 1907/2006, (EU) No 2017/2100 and (EU) 2018/605, at a concentration equal to or greater than 0.1% by weight.	
Other information	May cause allergic respiratory and skin reactions.	
SECTION 12: Ecological in	nformation	
12.1. Toxicity	Based on available data, the classification criteria are not met for hazardous to the aquatic environment.	
12.2. Persistence and degradability	No data is available on the degradability of any ingredients in the mixture.	
12.3. Bioaccumulative potential	No data available.	
Partition coefficient n-octanol/water (log Kow)	Not available.	

n-octanol/water (log Kow)	
Bioconcentration factor (BCF)	Not available.
12.4. Mobility in soil	No data available.
12.5. Results of PBT and vPvB assessment	This mixture does not contain substances assessed to be vPvB / PBT according to Regulation (EC) No 1907/2006, Annex XIII.
12.6. Endocrine disrupting properties	This mixture does not contain any substances having endocrine disrupting properties with respect to the environment as assessed in accordance with the criteria set out in Regulations (EC) No 1907/2006, (EU) No 2017/2100 and (EU) 2018/605, at a concentration equal to or greater than 0.1% by weight.
12.7. Other adverse effects	No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation

potential, endocrine disruption, global warming potential) are expected from this component.

SECTION 13: Disposal considerations

13.1. Waste treatment methods

15.1. Waste treatment methods	
Residual waste	Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).
Contaminated packaging	Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal.
EU waste code	The Waste code should be assigned in discussion between the user, the producer and the waste disposal company.
Disposal methods/information	Collect and reclaim or dispose in sealed containers at licensed waste disposal site.
Special precautions	Dispose in accordance with all applicable regulations.

SECTION 14: Transport information
